The child was playing in her front yard when the dog suddenly appeared and bit her. The wound was cauterized by a physician at George Washington University Hospital.

## PALESTINE TO GET LARGE UNIVERSITY

Part of the Palestine restoration fund now being collected will be used for the completion of a great university in Palestine, Nathan Musher, chairman of the committee which is raising Washington's quota of \$60,000, said today.

"The District quota of the fund," he said, "will not be solely for the benefit of the Jews, but of the Gentiles as well, due to the fact that a settlement at the center of the old civilized world will mean that we will derive the benefit of the culture and laws of the ancient race."

"The Senate of the Hebrews will once more sit at the gates of the city and make laws based on the first laws of the Jews. Aside from the spiritual and mental benefit that will be derived from the restoration of Palestine, the world will be furnished with products of agriculture that flourish nowhere else, due to the climatic conditions of this part of the world. Already we have under construction a magnificent university that will surpass any college in the world."

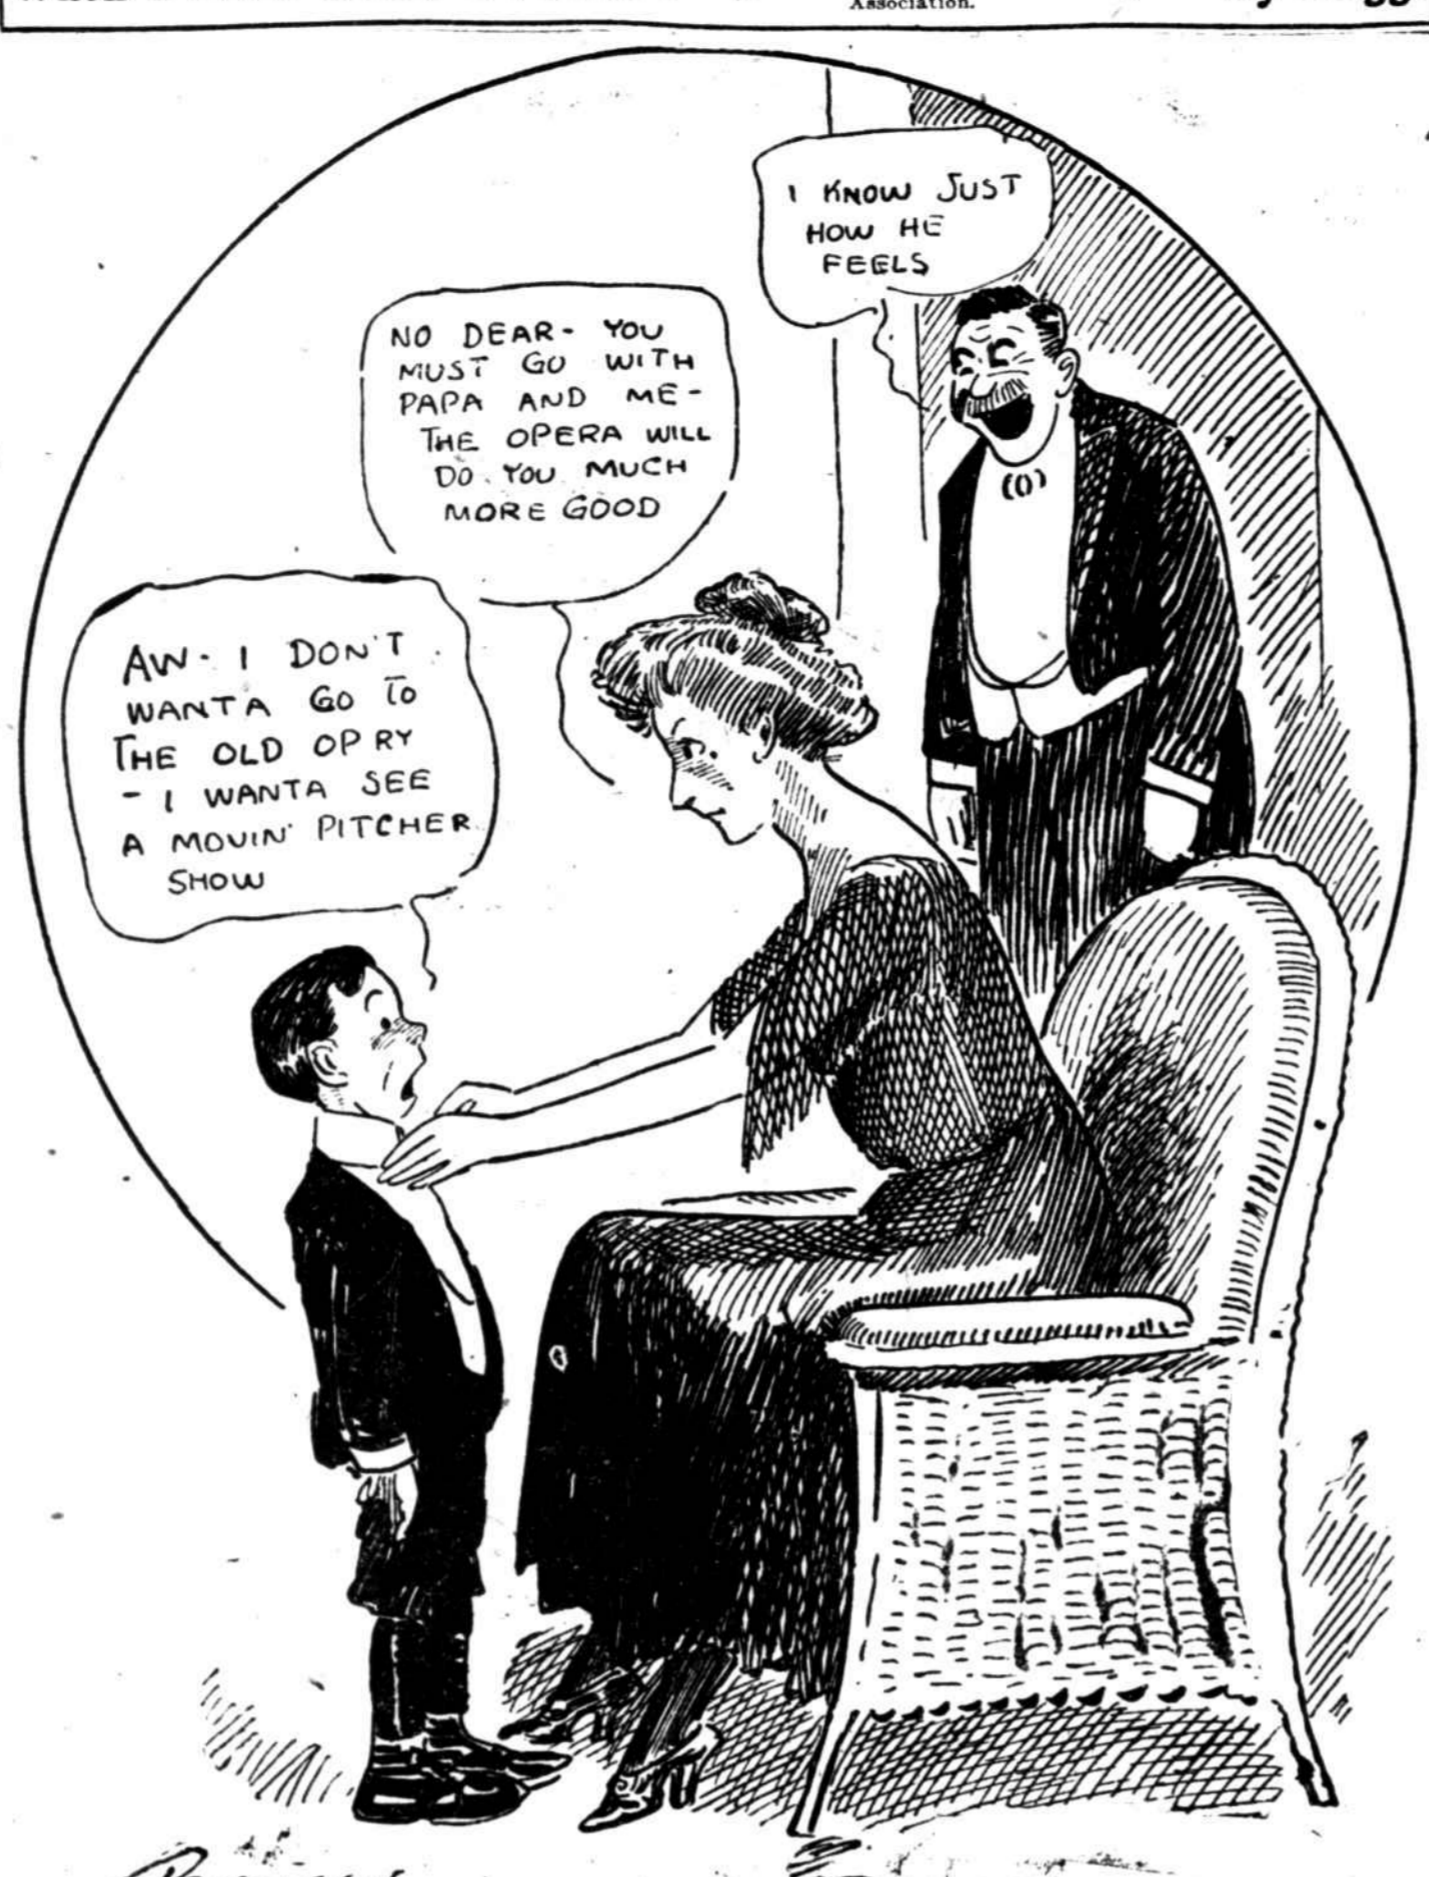

The committee held a meeting last night at the Y. M. H. A. Lieutenant Levenson, of the young Judea organization of New York, urged the Washington Herzy Club to affiliate with the New York organization. He said the duty of the younger generation lay in sustaining the old faith and rebuilding the ancient cities of the Jews. It is part of the work of the Washington society, he said, to widen its scope and instill the spirit of co-operation among the younger Jews of this city.

## DYING BY OWN HAND PHONES TO MORGUE

NEWARK, Jan. 20.—After shooting himself twice through the body this afternoon, Henry Ryan, a Pennsylvania railway detective, called up Mullen's morgue and delivered the following message:

"Send over the wagon. I've just shot myself and I'll be dead when it gets here."

He then gave explicit direction as to how the wagon driver was to get to the South street yards of the Pennsylvania and rang off. He also called up Chief Cookley, of the Pennsylvania detective force, telling him that some one on a passing train had shot him. When the morgue wagon arrived, Mullen found the man dying. He died before he reached the City Hospital.

## LOW PAY CAUSES TEACHER SHORTAGE

(Continued from First Page.)

were told the prevailing rate of pay less than nine took the examination. "But even with the doubtful help of untrained teachers the shortage of teachers is growing more apparent. Already many grades have been combined in various schools, and the teachers, all on low salaries, are being overworked because Congress refuses to recognize the fact that the cost of living has gone up. An salary so surely will many District schools close up."

"Because of these existing conditions, I look for an increase in literacy in the District. This will seriously affect the welfare of the National Capital in future years, when the children now taught have grown to manhood and womanhood."

"It seems a shame that Congress, supposed to be made up of highly educated men, should begrudge education to the youngsters living in the Capital City of the nation. If the legislators were in the shoes of the District fathers and mothers who are trying to give their children an education, their hearts would surely burn with resentment against the men passing the nation's laws."

"And the time has come when Government employees should be regarded with more consideration by Congress. To see the miserable salaries paid to school teachers and other Government workers, you would suspect that they were being fed mostly on praise and promise. Which is true."

"To offer District teachers a gift of \$240 in addition to their \$750 and \$1,000 pittance is like putting a slice of bread in front of a starving man. It doesn't help much. And Congress must soon realize the importance of solving the wage questions of both Government and District employees."

"A salary of \$1,200 to grade teachers and \$1,400 to high school teachers in the District should be approved by Congress and must be approved by Congress before the problems now menacing Washington's educational system are settled."

## TRAFFIC CAMPAIGN BRINGING RESULTS

A noticeable decrease in the number of traffic accidents today was evident in reports made to police headquarters. For the first time in several months the number, which usually average between ten and fifteen daily, was reduced to two for the twenty-four hour period ending at noon.

Police attribute the reduction to the campaign against reckless driving started a week ago.

Forty-two persons were arrested for violation of the traffic regulations yesterday. Many forfeited their collateral.

**May Make Changes.**  
Major Pullman is expected to outline several new changes in the traffic regulations upon his return from New York.

An automobile operated by Paul Cook, of 3214 M street northwest, was badly damaged yesterday when it collided with another operated by Robert Jennings, 2113 Fourteenth street northwest at Fifteenth and N streets northwest.

Slight damage resulted when an automobile operated by Alvin Fugitt, 21 Sixteenth street southeast, collided at Second and Pennsylvania avenue southeast last night with an unidentified automobile truck.

**Hit by W. R. and E. Car.**  
Edward E. Moore, thirty years old, of 2124 First street northwest, is in a serious condition today at Sibley Hospital suffering from injuries sustained Saturday night when he was knocked down by a street car of the Washington Railway and Electric Company at North Capitol and W streets northwest. Moore was carried several feet on the fender before the car stopped.

## HOW DOCTORS TREAT COLDS AND GRIPPE

Ask any physician or druggist and he will tell you that the best and only effective remedy for a bad cold, sore throat or la grippe, is what he calls "a brisk calomel purge," which means a big dose of calomel at bed time. But as the old style calomel has some very unpleasant and dangerous qualities physicians and druggists are now recommending the improved, nauseous, calomel tablet called "Calocals" which is free from the sickening and dangerous effects and whose medicinal virtues are vastly improved.

One Calocals on the tongue at bed time with a swallow of water—that's all. No salts, no nausea, nor the slightest interference with your diet, pleasures or work. Next morning your cold has vanished and your entire system feels purified and refreshed.

Calocals are sold only in original sealed packages, price 35 cents. Your druggist guarantees Calocals by refunding the price if you are not delighted.

It is a spacious two-story structure with a large lounge room and hall, equipped with a stage on the first floor. The second floor is used by the executive officers. A huge fireplace, a piano, and other comforts are some of the features of the hut.
